

# JOSHUA HAMAN

## Implementation & Solutions Consultant

Katy, TX • [lab.hamanit.org](mailto:lab.hamanit.org) • [linkedin.com/in/joshua-haman-478b462b4](https://linkedin.com/in/joshua-haman-478b462b4)

Client-facing implementation professional with hands-on experience taking ambiguous, fragmented business processes — spreadsheets, ticketing workflows, and internal tools — and turning them into documented, working deliverables. Most recently a Professional Services Intern at AssetWorks, partnering with PMs and CIO-level stakeholders on Certinia/Salesforce data consolidation and Microsoft Copilot-powered reporting. AAS in Cybersecurity (TSTC, 3.9 GPA). Anthropic-certified in prompt engineering; comfortable using AI tools (Claude, Copilot) to accelerate delivery. Bilingual EN/ES.

## EXPERIENCE

### Professional Services Intern — AssetWorks

Jun 2026 – Sep 2026

Greater Houston, TX

- Consolidated 20 fragmented customer fleet spreadsheets into a single Excel deliverable with an integrated VIN decoder, cutting a scattered manual process down to one customer-facing report.
- Took over a broken internal quoting application after the original build stalled mid-project, diagnosed the issue, and shipped a working tool that auto-assigns terms and conditions from user selections.
- Authored technical documentation for the ticket-to-report workflow used by the services team, enabling clean handoff of the process to a new team.
- Built the official AI Competition Checkpoint presentation deck and presented a Microsoft Copilot proof-of-concept — auto-generating project status reports from Certinia PSA, Salesforce, Zendesk, Jira, and Azure API data — to the Director of Professional Services, PMs, and CIO-level stakeholders.

### Consultation & Repair Agent — Best Buy – Geek Squad

Oct 2024 – Present

Katy, TX

- Primary technical consultant for hardware, software, and networking issues in a high-volume, client-facing environment, translating technical concepts into plain language for non-technical customers daily.

### AI Trainer & Data Analyst — Handshake

Nov 2025 – Present

Remote

- Train and evaluate LLMs through structured prompt engineering, identifying failure modes and producing high-quality, well-documented training annotations at scale.

### Help Desk Technician — Brookside Realty LLC

Feb 2024 – Jul 2024

Katy, TX

- Troubleshoot networks, configured desktops, and resolved software issues to maintain seamless daily operations for a small business.

## RELEVANT PROJECT

### OpenClaw AI Gateway — *Node.js / NVIDIA Nemotron / Discord / Telegram*

- Architected a Node.js API gateway routing requests across Groq, Cerebras, and NVIDIA with dynamic failover and webhook-driven event handling — a reliability pattern directly applicable to client implementation work.

## EDUCATION

### Associate of Applied Science – Cybersecurity

Texas State Technical College (TSTC), Rosenberg, TX • GPA: 3.9

### Bachelor of Science, Information Technology

Western Governors University (WGU) • In Progress — Started 2026

## CERTIFICATIONS

- Building with the Claude API — Anthropic, Mar 2026 (ID: r3xiacmdarbj)
- AI Infrastructure & Operations Fundamentals — NVIDIA, Mar 2026 (ID: JQZDNM1UUX6C)
- CompTIA A+ — In Progress

## SKILLS

**Client & Implementation:** Requirements Gathering, Stakeholder Management, Process Documentation, Client-Facing Presentations, Cross-Functional Coordination, Solution Configuration, Discovery & Scoping

**Business Systems & Data:** Certinia PSA, Salesforce, Zendesk, Jira, Microsoft Excel, SQL fundamentals, Azure API integrations

**AI & Automation:** Microsoft Copilot, Claude, Prompt Engineering (Anthropic certified), n8n, REST APIs, Webhooks, JSON, OAuth

**Technical Foundation:** Python, Node.js, Cisco networking, Windows Server, Active Directory, VMware
